New York, June 3.—There was no complaint to-day in Wall street as there has been for some time past that the stock market, though strong and active, was really a market made up to a great extent of transactions in one or two leading stocks, principally of late in the leading stocks, principally of late in the United States Steel common shares.

From the beginning of the stock exchange session to-day a sustained buying power exhibited itself in practically all the prominent railway and industrial shares, on a larger scale than has been with the prominent railway and industrial shares, on a larger scale than has been with the prominent railway and industrial shares, on a larger scale than has been with the prominent railway and industrial shares, on a larger scale than has been with the prominent railway and industrial shares, on a larger scale than has been with the prominent railway and industrial shares, on a larger scale than has been with the prominent railway and industrial shares, on a larger scale than has been with the prominent railway and industrial shares, on a larger scale than has been with the prominent railway and industrial shares. shares, on a larger scale than has been seen at any time in the present year.

hares, on a larger scale than has been seen at any time in the present year.

So far as the volume of market dealogs was concerned, they were exceeded not have a concerned. They were exceeded not have a concerned they were a concerned t ings was concerned, they were exceeded once before this year, namely, on February 25, when the market was convulsed by liquidation and speculative pressure for the decline following upon the announcement of the reduction list prices by the United States Steel Corporation.

NEW YORK MONEY.

United Copper pfd ...

New York, June 3.—Sterling was very firm, with rates 5 points higher. Actual business closed: Sixty days. 4.8615a4.805; demand. 4.8753a4.875; cables, 4.8810a4.820; commercial bills, 4.85½ for ninety days and 4.85½a4.88 for sixty days. Flour bills, 4.85½ for sixty days; grain, 4.86%. The supply of grain and cotton bills was scarce. Money on call opened at 1% per cent; highest, 2 per cent; lowest, 1½ per cent; closing, 1½ per cent. Most of the day's loans were made at 1% per cent.

Time money was in better demand for longer periods, but difference of opinion between lenders and borrowers continued, with the result that transactions were not numerous. Short money was particularly dull. Rates were: 2½a2½ per cent for sixty and ninety days; 2½a3 per cent for four and five months; 3a3½ per cent for six months; 3½a3½ per cent for seven months. Mercantile paper continued in fairly good demand and issued with moderate freedom.

The Safest Investments

Are those that do not fluctuate during disturbed conditions of the money or stock markets. First dred of trust notes (first mortgages), well secured on real catate in the District of Columbia, constitute "gilt-edge" investments. They do not depend upon the financial responsibility of indi-viduals or corporations for their stability, and are exempt from taxation as personal property. We can supply such investments in amounts from \$500 upward. Send for booklet, "Concerni-Loans and Investments."
